STOCKS, BONDS, AND MONEY KOREANS FIGHT:

BEAR MOVEMENT ENDED QUICKLY

Market at Practical Standstill Around Noon.

Union Pacific, and Reading, ½; ¼ in Steel common and Anaconda, and ½ in Chesapeake and Ohio. Analysis in Bk. Rpd. Trans NEW YORK, Aug. 2 .- The stock maropened ¼ higher and reacted ¼.

II a, m .- The market had a firmer tone during the first hour and prices on that period made gains of 1 point or more in everything traded in showed some advance over yesterday's close. A fractional reaction was caused by selling movement leaving prices at the end of the hour only slightly above yesterday's close. Government bonds were unchanged; other bonds quiet.

Noon—The bear selling movement that was in progress at the end of the first hour ended quickly and around noon the market was at a practical standstill.

Corn Pro Corn

The coinage executed by the mints of the United States during the month of July amounted to \$7,457,000. Of this temount \$7,000,000 was gold, \$330,000 in silver, and \$107,00 in minor coins.

According to the best opinion there is nothing in the bond market situation which stamps the outlook for August, and, in fact, the succeeding months of the year, as any more encouraging than it was just previous to the time of the beginning of the usual midsummer duliness.

From the way prices melted after the Southern Facific dividend announcement, it looked for a while as if E. Henry Harriman had handed out another lemon by mistake.

Nobody had expected anything but the regular dividend on St. Paul, and it was scarcely mentioned either before or after the declaration. The stock does not act well, and seems weakest when it becomes most active.

John V. Farwell, jr., president of the Commercial Club of Chicago, says that not a cloud is on the commercial hori-zon. Chicago has never received so many advance orders or such large ones.

many advance orders or such large ones.

The circular of the National City Bank, of New York, for August, discusses the ability of the Treasury to come to the ald of the money marked during the crop moving period. On this score the circular is not particularly sanguine. It cites the fact that at this time the actual working capital of the Treasury is \$71,000,000, and that if the customary practice of carrying \$50,000,000 as a working balance is adhered to the \$21,000,000 which is left will be of great assistance in time of stringent money. If, however, the Treasury balance should be reduced to \$25,000,000, as Secretary Shaw once thought safe, there would be \$46,00,000 available for relief.

The War Department has decided that the Ambrose channel to New York harbor may be used by the largest of the trans-atlantic steamers while the work of dredging is still in progress under the Cunard line people have been afraid that the new big liner Lusitania might experience difficulty in getting in and out of New York, when heavily loaded, by way of the old channel, and appealed to the department with the result noted. Smaller vessels, tugs, and other craft vill not be permitted to use the Anabrose channel while the work is going on. Some of the big trans-Atlantic commany, have asked that the channel be buoyed. This has been declined by the department, inasmuch as to do so would give the channel a sort of legal status and attach responsibility which the army engineers decline to assume.

The Lusitania, which is the largest ship ever floated in the world, and which deomnstrated her ability to make twenty-five knots an hour in a two-day speed test ended yesterday, will arrive in low york about the middle of September from Liverpool on her maiden voyage.

ANEW YORK, Aug. 2.—Prices at the opening of the softon market this morn ing were two points to one point lower. Most of the shorts had covered yester-most of the shorts had covered yesters.

CHICAGO GRAIN MARKET, WHEAT OPENS HIGHER

CHICAGO, Aug. 2.-Firm cables and low temperature in Northwest, to-gether with light Argentine shipments caused a higher opening in wheat; prices at the start being 1/2 to 1/8 cents yesterday. There was a little short covering and a few scattered commission houses buying. Local bears sold on a general forecast for warmer weather in the Northwest. St. Louis got 160,000 bushels of wheat today, against 190,000 a year ago. Corn and oats also showed strength

mainly in sympathy with wheat. Opening-Wheat, September, 921/2092%. Corn, September, 54%/95414. Oats, September, 40%.

Washington Gas Boomers Get Busy and Make Many Transactions.

For a brief moment today on the stock umped rapidly up from an opening of stock pressing for sale corralled with every indication that buyers were out for the stock and were not disposed to haggle over the price paid for it. It has been a long time since so much interest was shown in this security, and the action today would seem to corroborate the opinion lately expressed by conservative brokers that a movement tower gate. was pending that would be of much interest to holders who have seen only declines for many nation this company. months in their

The dealers in Washington Gas stock got real busy today and made a most excellent showing on the record. The total sales ran up to nearly 1,100 shares, but there is every probability that but few bank accounts will be severely strained when it comes to a settlement.

Lanston was fractionally stronger on sales of 300 shares and the demand at the close was a pretty good indication that recent weak holders had been through the process of elimination, which is the polite way of saying that they had been frozen out. Mitchell Mining was still on tap at 2%, with small demand. Bonds were neglected, as for the first time in many days not a trade was made.

innovation in New York Keeps Bluecoats Busy

CHARGED WITH EMBEZZLING FROM HIS EMPLOYER

Charged with embezzling from his employer, Frank Neuser, Charles Schnider was locked up by Precinct Detective Greene and Officers Collins and Sullivan early this morning.

It is alleged that Schnider, while working for Neusey, at the latter's store at the corner of Fourteenth street and Florida avenue, was sent out to collect some bills and failed to render any account at the office.

He will be tried before Judge Mills to.

COTTON CONDITION 75.0, SAYS REPORTING BOARD

He will be tried before Judge Mills to-

The crop reporting board of the Agricultural Department today announced the condition of the cotton crop on July 25, to have been 75 per cent, as compared with 72 on June 25, 1907; 82.9 on July 25, 1906; 74.9 on July 25, 1905, and a tenyear average of 82.6.

TREASURY STATEMENT.

Today's Treasury receipts were \$4,544,-058; expenditures, \$1,810,000.

UGLY CHARGES FORCED (Continued from First Page.) ngton, other politicians and cattle mer will be in hot water. Mrs. Gray alleges they have taken hundreds of thousands

flicted, because of circumstances surounding her accepting money from the Crows. The Indians became excited when she made it plain to them that they were victims of a conspiracy, and readily advanced her the money to the matter before the proper officials and secure for them their rights. The acceptance of money, however, from Indians without the consent of the Government is an offense punishable by impressions of the consent of the consent of the Government of the consent of the consent

all of the offenders.

of the former Emperor's household are in custody almost to a man, the Japanese charging that they were responsible for the fighting, and that a plot existed among them to release the deposed Emperor.

Rioting and street fighting were resumed at daybreak today. A demand by Japanese cavairy at the little West Gate barrack for the surrender of the Korean soldiers' supplies started trouble. The Koreans were finally driven into their quarters by a heavy fire from the tower gate.

I and I see Machine Guns ore out her statements.

UPON INDIAN AGENTS

she compels the Government to punish

Agent Sent to Reservation.

Secretary Garfield sent Agent Dalbey to the reservation to make an investi-gation. The woman says Dalbey found forcements invested all the buildings.
Japanese with machine guns are also guarding the approach to the Japanese section of the city.

Three more Korean garrisons are still to be deprived of their munitions. Serious fighting is expected to follow demands for its surrender.

Today a guard of Japanese was thrown about the American consulate.

Today a guard of Japanese was thrown about the American consulate. so much per head, but he ran 69,000 ex-About sixty Koreans were killed in all the fighting thus far. The Japanese losses are given at approximately forty

cent.
The principal charge made by Mrs. Gray is that the consent of the Indians was obtained to the opening of the ceded strip by fraud and that they were not first paid \$1.25 per acre, as they should have been. The Indians were to be paid for the land as it was occupied, but Mrs. Gray says they have not received their money and that \$1.600,000 is now due. She also charges that gross favoritism was shown to certain sheep imen in the matter of leasing permits and that they grazed more sheep than their leases called for, in many instances, one and two times as many.

Agent Reports Everything Regular. Assistant United States District Atorney Smith says that Agent Dalber informed him that the affairs of the reservation were regular and in good shape; also that Major Reynolds, the Indian agent, told him that Mrs. Gray

Indian agent, told him that Mrs. Gray had stirred up so much trouble among the Indians that her arrest was ordered several times and she was finally put off the reservation. The Indians, he said, were so nervous as to become nearly untractable.

All the same, Mrs. Gray says she will persist in her campaign until the whole conspiracy has been exposed and the Indians are given their rights.

FIRE DEPARTMENT TESTS TO PREPARE FOR SHOW

In preparation for a demonstration before the members of the International Association of Fire Engineers on October 9, 1907, a preliminary test of the engines and trucks of the District Fire Department will be held Sunday morning at 6 o'clock at the Louisiana avenue and Seventh street cistern. Chief Belt will be in charge of the test, and has issued instructions to the department relative to the various tests.
